

LAB - In class

Topic 7: Trigger

Lecturer: Lê Thị Nhàn, PhD.
Lab instructor: Nguyễn Ngọc Toàn, MSc.
Nguyễn Ngọc Minh Châu, MSc.

In-class assignment

Use the University database (run UniversityDB_script file on moodle to create the database). Identifying the scope, risks and implementing triggers to ensure the following business rules:

1. BR1: A course must not have more than 4 teaching staff per section.
2. BR2: A department's head must belong to that department.
3. BR3: Students can only take a maximum of 4 subjects in one semester.
4. BR4: Students must pass all prerequisites before enrolling in a course.
5. BR5: An instructor can teach at most three sections in the same semester and school year.
6. BR6: An instructor cannot be the head of more than one department.
7. BR7: The prerequisite relationship must not contain a cycle; for example, if CS01 is a prerequisite of CS02, CS02 cannot directly or indirectly become a prerequisite of CS01.
