

PRACTICAL COURSEWORK REGULATIONS

I Regulations

Grading:

- The practical component accounts for 60% of the total course grade and is assessed as follows:
 - **Projects (2)**: 30%
 - **In-class Tests (Midterm + Final)**: 30%
 - **Note**: Check syllabus for grade ratio for each part.

Submissions:

- All assignments must be submitted exclusively via the Moodle system.

How to get a score of ZERO for the entire practical part:

- Being absent from **any** test or exam without a pre-arranged excuse.
- Fail to submit the project.
- Cheating.

II Plagiarism & Cheating

- Plagiarism and cheating are strictly prohibited. A score of ZERO for the entire practical component will be assigned to any student caught plagiarizing or cheating, as well as to any accomplices. All cases will be reported to the Management Board for further disciplinary action.
- Any portion of an exam, test, project, or report with high similarity (above 70%) to another source will be classified as cheating. Any action intended to gain an unfair advantage—including, but not limited to, taking exams from unauthorized locations or collaborating without permission—will be considered cheating.
- Copying any code snippet or text without proper citation in the comments or referencing the source is considered plagiarism.
- If plagiarism or cheating is suspected but evidence is inconclusive, students may be required to retake the assessment (test, exam, project, etc.) under supervision.
- The use of any kinds of AI tools/frameworks are prohibited in the midterm and final practice tests. On the other hand, the students may use AI as a support tool for the projects in brainstorming, formatting. However, the students are required to understand the workflows of their projects and are able to answer/perform the examiner's questions/requests. In case the students could not answer/perform these questions/tasks, the penalty will be decided by the examiner.

THE END
