

Social, Ethical, and Legal Implications of Computing Summer 2026

Final Presentation

Total Point: **20%**

Besides the final exam, there is the final presentation to be presented by two students for each topic. Unlike lightning presentation, each final presentation will last 15 minutes, and there will be questions from the instructor and TA to verify **each student**'s understanding of the topic.

1. Determine a topic and provide its brief description

Each group finds and proposes a topic to present. The topic must be of social, ethical and legal issues in the information age that we focus on the course.

Your final topic must be different from those of your lightning presentations (regardless whether you have already delivered or not).

Below are **examples** of relevant topics. The topic must be specific and narrow. (Please note that these topics are not necessary the ones you choose from as you are free to find and propose a topic of your interest).

- AI-related ethical issues, for example
 - a. AI bias
 - b. Inequality
 - c. Concerns of Generative AI (e.g., ChatGPT and GitHub Copilot)
 - d. Manipulation of human behaviors
 - e. Concerns of recommendation systems
 - f. A topic concerning AI alignment
 - g. Unemployment and automation
 - h. Autonomous driving
 - i. Impact of AI on education
 - j. Agentic AI issues
 - k. AI governance.
- Software copyright infringement issue in Vietnam.
- A privacy issue in Vietnam.
- The U.S. NSA's Surveillance Programs leaked by whistleblower Edward Snowden (a former NSA contractor)
- Freedom of expression and its limit.
- Possible privacy issues of sharing details of coronavirus patients.

Your topic will be reviewed by the instructor. There will be no more than one group presenting the same topic. If two or more groups propose the same topic, the group which submits later will be asked to submit another topic.

Registration sheet:

<https://docs.google.com/spreadsheets/d/1JXoaRkePpV33a1qHaxdGMgzAuxmzmJZhTIPEFadMJcs/edit?usp=sharing>

Topic registration due: 14/8/2026 @ 11:59 PM

2. Deliver the Oral Presentation

Your group is also asked to give a 15-minute presentation. You need to present your opinions and arguments about the topic you choose. The main goal is to make sure that the instructor and TA understand your points and are convinced with what you present. You need to use what you learn in the class to reason your opinions and arguments.

The instructor and TA will evaluate your presentation following overall criteria:

- Relevance of the topic.
- **Engaging with the audience well, energetic and enthusiastic in delivery.**
- How well you can answer questions from the instructor/TA.
- Your presentation must include the topic's title and an introduction about your topic, giving a context and background about it.
- Objectives are stated clearly.
- Presenters' positions are explained well.
- Knowledge learned from the course is used.
- Presenters know what they were talking.
- Presentation is easy to understand.
- Arguments are convincing (using data, evidence, etc.).
- Must provide evidence, data, references to justify opinions.
- Ethical theories are used to justify your opinions.

Presentation slide submission: **16/8/2026 @ 11:59 PM.**

Naming: <TopicNo>_<ID of student 1_ID of student 2>

(TopicNo is the order of the topic registered in the sheet).

Presentation schedule: the presentations are scheduled for **17-18, 24-25/8/2026**. There will be two sessions, morning and afternoon. You will present and attend in **one** session.
